The Lodge at Marlton ★ Upper Marlboro, Maryland

Client

The Lodge at Marlton

Project

Landscape and installation services for an apartment-style Senior Living Community

Scope of Services

- Landscape Planting
- Design-Build Solutions
- Site Furnishings
- Grasspave 2 Firelane
- Modular Pavers
- Installation-Modular Wall

Nestled in a residential area of Upper Marlboro, Maryland, The Lodge at Marlton offers affordable and comfortable apartment living for Seniors 62 or better. This active community is next to a shopping center that includes: a grocery store, pharmacy, salon, and more!

E-Landscape was instrumental in the design and installation of patio walls throughout the Lodge. Through work with Hamel Builders our team was able to create seamless transitions from the existing hardscape to newly installed colorscapes. A short stroll through the property provides pleasing views to each visitor and resident of The Lodge at Marlton. We continue to maintain this site as well as provide design-build enhancements post construction with the Lodge at Marlton’s management company.

The Lodge at Marlton property is currently managed by Habitat America LLC, based out of Annapolis, Maryland. Habitat America specializes in opening and maintaining professionally-run communities. E-Landscape shares Habitat America’s philosophy in their commitment to providing the highest standard of service in every aspect of property operations.
