LOCAL FIRM COMPLETES LANDSCAPING AT NEW AAMC PAVILLION

Annapolis, MD April 7, 2011 –

Commercial landscape firm E-Landscape Specialty Solutions of Davidsonville, Maryland recently completed work on the installation of a new landscape at Anne Arundel Medical Center's expanded emergency room and new pediatric ER. The expansion at AAMC, intended to improve patient care, includes two waiting rooms, greeter/reception, eight triage bays, blood draw stations, and new treatment rooms.

The project was also part of a larger effort by AAMC to become the first Maryland Hospital to be LEED Certified by the U.S. Green Building Council. The project's General Contractor, Baltimore-based Whiting Turner, along with Architect C.R. Goodman Associates and Landscape Architect The Faux Group, kept green features in mind during design and construction and must achieve rigorous follow up in assuring all the specified materials are documented appropriately throughout construction in order to meet LEED Certification requirements.

E-Landscape was selected to install many of the hard- and softscape elements designed by The Faux Group, including installing modular pavers, vehicular bollards, landscape planting, and topsoil, and carrying out forest enhancement. "We knew we wanted this job more than most the minute the plans hit our desk," explained E-Landscape President Eric Drenner. "The opportunity to work with Whiting Turner on a large scale project just minutes from our office was too good to pass on. We made sure our pencils were sharp on bid day and won the job."

Anne Arundel Medical Center is a private, non-profit hospital providing acute inpatient and outpatient care on a non-profit basis to the residents of Anne Arundel County, Calvert and Prince George's counties and the Eastern Shore of Maryland. For more information, see www.aahs.org.

E-Landscape Specialty Solutions is a premier provider of commercial landscape design, installation and landcare services in the Mid-Atlantic region. For more information, see www.e-landscapellc.com.
