E-LANDSCAPE COMPLETES LANDSCAPING AT AMERICAN TRUCKING ASSOCIATION OFFICES

Davidsonville, MD March 18, 2011 –

Davidsonville, Maryland-based commercial landscaping specialist E-Landscape Specialty Solutions announced today that it has completed tree planting at the American Trucking Association offices in Washington, DC.

The American Trucking Association has served and represented the nation's motor carrier industry since 1933. The Association has recently completed work on its new Capital Hill offices and has selected E-Landscape to perform various landscaping tasks including tree planting, irrigation, the use of lightweight structural soil (the building is built on top of a parking garage), and the installation of site furnishings. E-Landscape is now providing ongoing maintenance and will be taking care of snow removal during the winter.

"Our work at the American Trucking Association really exemplifies the range of services we can provide to commercial clients" commented E-Landscape President Eric Drenner. "In addition to a full range of landscape installation tasks, we will also carry out ongoing maintenance and snow removal, making this a true four season job."

E-Landscape Specialty Solutions is a premier provider of commercial landscape design, installation and landcare services in the Mid-Atlantic region. For more information, see www.e-landscapellc.com.
