E-LANDSCAPE SELECTED FOR RECONSTRUCTION OF THE PRINCE WILLIAM ICE CENTER

Davidsonville, MD July 6, 2011 –

Davidsonville, Maryland-based commercial landscaping specialist E-Landscape Specialty Solutions announced today that it has been awarded the contract to provide landscape design and installation services for the reconstruction of the Prince William Ice Center in Woodbridge, Virginia.

The Prince William Ice Center collapsed under heavy snow in February 2012 and is currently being reconstructed, with opening scheduled for August of 2011. E-Landscape will work with developer R.W. Murray Co. and Architect Rinker Design Associates to provide a ground-up, comprehensive landscape design for the new facility. The work will also include the installation of foundation and site plantings.

“We are excited to begin work on the landscape design and installation for the Prince William Ice Center,” commented Eric Drenner, President of E-Landscape Specialty Solutions. “This facility is an important part of the community and home to several ice hockey and skating clubs. It will be great to see it rebuilt and we’re looking forward to making it a beautiful destination.”

E-Landscape Specialty Solutions is a premier provider of commercial landscape design, installation and landcare services in the Mid-Atlantic region. For more information, see www.e-landscapellc.com.
